

NiO CODE X

WHITEPAPER

NCXAPP.COM

ABOUT PROJECT

No Code X delivers the data obtained from the data to the b2b and b2c end user with earn machine / artificial intelligence technology, making the usage panel completely unique. At the same time, No Code X brings together undiscovered visuals by matching the building blocks of visual analysis and data analysis with artificial intelligence. With all these features, No Code X offers an unrivaled and unique infrastructure solution.

Remember, 'Our biggest competitor is what you can't imagine'.

INTRODUCTION

Data is becoming increasingly important to help businesses stay ahead of the competition and make better decisions. However, data analysis can be a complex process that requires expertise in data science. This can lead to problems such as a shortage of data science experts and the complexity of the data analysis process.

No Code X is a data analysis tool designed to help solve these problems.

No Code X allows even users who are not experts in data science to perform powerful and complex data analysis.

1. EMERGENCE PROBLEM OF THE PROJECT

The No Code X project has emerged to provide solutions to the following problems;

- **Data Science Expert Shortage:** Data science is an increasingly important field. However, finding and training data science experts can be difficult. No Code X helps solve this problem by enabling non-data science experts to benefit from data analytics.
- **Cleaning up Complex Fields:** Complex fields can be a challenge for data science. No Code X helps solve this problem by facilitating the cleaning of complex fields.
- **Complexity of the Data Analysis Process:** The data analysis process can be complex and time consuming. No Code X helps solve this problem by making the data analysis process more efficient.

2. VALUES ADDED BY THE PROJECT

By helping businesses get more value from their data, this project also provides economic benefits such as

- **Increased Efficiency:** No Code X helps businesses optimize their operations, increasing their efficiency. This helps businesses reduce costs and gain a competitive advantage.
- **Increased Sales:** No Code X helps businesses increase sales by helping them create more effective marketing campaigns.
- **New Opportunities:** No Code X helps businesses discover new opportunities by helping them gain insights into new markets, products and services.

Overall, the No Code X project is a powerful and useful tool that can help businesses get more value from their data.

3. PROJECT BENEFITS

This project helps businesses realize benefits such as;

- **Better Customer Decisions:** No Code X helps businesses gain deeper insights into customer behavior, trends and preferences. This helps businesses create more effective marketing campaigns, improve customer satisfaction and increase sales.
- **More Efficient Operations:** No Code X helps businesses optimize their manufacturing processes, supply chains and other operations. This helps businesses reduce costs, increase efficiency and gain a competitive advantage.
- **Exploring New Opportunities:** No Code X helps businesses gain insights into new markets, products and services. This helps businesses grow and discover new opportunities.

3. PROJECT BENEFITS

This project helps businesses realize benefits such as;

- **Better Customer Decisions:** No Code X helps businesses gain deeper insights into customer behavior, trends and preferences. This helps businesses create more effective marketing campaigns, improve customer satisfaction and increase sales.
- **More Efficient Operations:** No Code X helps businesses optimize their manufacturing processes, supply chains and other operations. This helps businesses reduce costs, increase efficiency and gain a competitive advantage.
- **Exploring New Opportunities:** No Code X helps businesses gain insights into new markets, products and services. This helps businesses grow and discover new opportunities.

4. FEATURES

- **Visual Data Exploration:** No Code X provides powerful visual tools that allow data analysts to quickly and easily explore their data. These tools help them understand the distribution, trends and patterns of their data sets.
- **Automated Data Preparation:** No Code X automates the complex pre-processing steps required to get data ready for analysis. This allows data analysts to devote their time to more valuable analysis tasks.
- **Data Enrichment:** No Code X uses natural language processing, machine learning and other advanced technologies to add additional information to the data. This helps data analysts gain deeper insights.
- **Visual Data Visualization:** No Code X offers a variety of tools and charts to visualize its data in an informative and compelling way. This enables data analysts to easily share their findings with others.

- **Collaboration Tools:** No Code X includes tools that allow data analysts to easily collaborate their projects with others. This helps them achieve faster and more efficient results.
- **Artificial Intelligence Powered Analysis:** No Code X allows data analysts to automate their analysis and gain deeper insights using AI models.
- **Dynamic Reporting:** No Code X offers dynamic reporting tools to update its data in real time and add new information. This helps data analysts to continuously update their findings and make them more relevant.

No Code X is a powerful and useful tool to help businesses get more value from their data. No Code X is also a powerful tool to help businesses leverage data science and gain a competitive advantage.

5. ROADMAP

(Q2 2023) - Stage 1: We Have More Family Members !;

- AData Analyst (3 Person)
- Panel Moderator (14 Person)
- Blockchain Developer (2 Senior, 3 Middle/Person)
- Artificial Intelligence Testnet Developer (4 Person)
- Product Manager (1 Person)

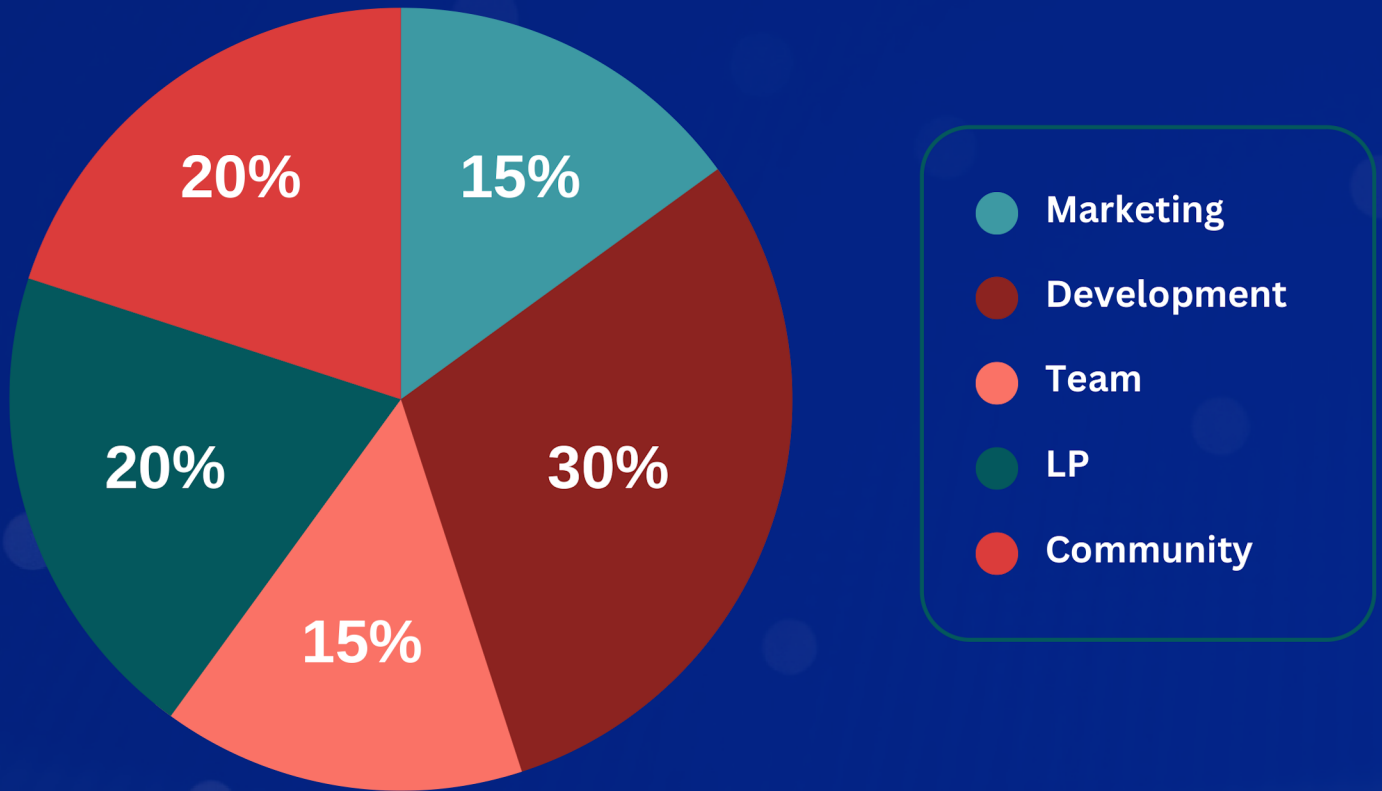

(Q3 2023 / Q2 2024) - Stage 2: No Code X Pro Version 1.0 Live;

- Command all your jobs in the panel with AI live chat.
- Manage all your third-party wallets under a single integration (Metamask, CoinWallet, . .)
- Be one with your pro screen that you can customize.
- Create NFT or NFT collection with a single command with erc-721 and erc-1155 contracts with all images created with artificial intelligence.

(Q3 2024) - Stage 3: We Are Adding Features to Our Pro Version;

- Special usage panel for game companies
- Creating all in-game assets with artificial intelligence
- Converting in-game generated assets to NFT
- Ability to trade in-game generated assets between users
- Leasing of all created assets to another user
- We open the live data of web3-oriented assets in the gaming industry to our pro version users.

6. TOKENOMIC

TOTAL SUPPLY: 33.000.000.000
